

The Bonnot Company

Global Leaders in Extrusion Solutions Since 1891

Customer Data Sheet

Company Information

Company Name: _____

Company Address: _____

Company Website: _____

Contact Name & Title: _____

Contact Email: _____

Contact Phone Number: _____

Project Information

Project Name (if applicable): _____

Project Commissioning Date: _____

Project Site Location: _____

Do you have an allocated capital budget for this project: _____

Material Information

Name & Number of material to be processed: _____

- Moisture Content: _____
 - Weight (pounds per cubic foot): _____
 - Viscosity (if applicable): _____
 - Particle Size of Material: _____
 - Temperature Constraints: _____
 - What is the formulation of the material; type of binder: _____
 - How does the material arrive to your facility: _____
 - Is your material abrasive: _____
 - Please describe other specific material information: _____
-
-

The Bonnot Company

Customer Data Sheet

Processing Specifications

How many pounds per hour do you want to process: _____

Shape, size, and length the material will be formed to: _____

What is the optimal processing temperature (if known): _____

How many hours per day will the machine operate: _____

What is the size/shape of the feedstock (bale, granular, shards, etc.): _____

How is the material being mixed prior to extrusion: _____

What type of mixer will be used: _____

Does the material need to be cut: _____

Does the material need to be dried: _____

Does the product need to be cooled: _____

Describe the facility environment (dusty, hot, cold, etc.): _____

Please describe other specific processing requirements for the machinery: _____

Laboratory Testing

Is this a new product for your company: _____

Have you conducted any testing in the lab with this product: _____

Do you have any lab data available: _____

What type of equipment have you used (lab or production):

- Extruder: _____
- Feeder: _____
- Cutter: _____
- Mixer: _____

Please describe other specific lab testing or experimentation: _____

Customer Data Sheet

Engineering/Technical Specifications

**Please note some information may not be known until further technical conversations with Bonnot Sales/Engineering is complete*

Size of Machinery needed: _____

Type of Machinery needed: _____

Facility (footprint) constraints: _____

Motor orientation desired: _____

Centerline height desired: _____

Does your facility use a specific motor/reducer brand: _____

Specific NEMA rating for motor? What type: _____

What are your electrical specification needed (V, HZ, Ph): _____

Do you require System Controls? Brand: _____

Type of NEMA Enclosure (if applicable): _____

Do you require pressure and/or temperature monitoring: _____

Do you require stainless steel contact components: _____

Is your application food, pet food, or pharmaceutical? Type: _____

Do you have any special cleaning considerations: _____

Will this machinery be a dedicated line: _____

Does the machinery need to be mobile: _____

Feeding or metering into another piece of equipment: _____

Do you require an adapter piece to connect machinery: _____

Paint color desired: _____

Type of Paint (std. is enamel) (Enamel, Epoxy, Powder Coating): _____

Please describe other specific engineering requirements: _____

Sales Information

Have you worked with Bonnot in the past: _____

Have you receive a quote or budgetary pricing on this project: _____

Do we have a Mutual NDA in place with your company: _____

Have you visited our website: _____

How did you hear of Bonnot: _____

Are you interested to hear about our leasing program: _____

Are you interested to hear about our test lab programs: _____

Bonnot prides itself on its accurate and timely communication. The more information that can be provided on the front end of your project will help expedite the Approval Drawing Phase and overall lead time. Our goal is to provide machinery to your specifications in a timely manner. In many instances the machinery that you will purchase will have some kind of custom element, so it's imperative that we understand your needs fully. This will allow us properly price the machinery and give you a realistic lead time.

We are here to solve your processing problem. We have standard solutions and custom solutions. This Customer Data Sheet will assist all of us to determine your needs.

We look forward to working with you. If you have any questions or concerns at any time please don't hesitate to ask. We want you to enjoy the process of working with Bonnot. We have been in business for over 125 years, so there is not much we haven't helped a customer with.

Thank you.
